EDUCATION

GREATER NOIDA INSTITUTE OF TECHNOLOGY

Greater Noida, Uttar Pradesh

BCA (Bachelors of Computer Applications)

Oct 2022 - May 2025

Experience

Kuki Solutions

April 2024– June 2024

AI/ML Trainee

Responsibilities:

- Assisted in building Python scripts to extract and process data from files (Excel, PDF, Docs), improving data usability for business analysis
- Developed a chatbot interface using Flask and MongoDB, enabling users to save and retrieve conversation history efficiently
- Worked with PostgreSQL for storing structured datasets and connecting databases to Python applications
- Contributed to developing RESTful APIs using FastAPI and Flask, enhancing system communication between front-end and back-end
- Supported the creation of basic data pipelines for cleaning and preprocessing data, applying Python libraries like Pandas and NumPy
- Learned basic data forecasting techniques using historical data patterns to generate reports and insights
- Gained experience in collaborative software development using Git, GitHub, and Agile task management tools
- Participated in regular code reviews and documentation, improving code quality and understanding of real-world development practices

Octanet Services Pvt Ltd.

June 2024– Sep 2024

Web Developer Intern

Responsibilities:

- Developed a front-end using React, creating a responsive and intuitive user interface
- Implemented responsive design principles to ensure cross-device compatibility
- Developed front-end clones of Google, Netflix, Swiggy and other popular Applications

PROJECTS

LearningExpresshub.com

I have independently worked on LearningExpress, an educational website, handling both automated test cases and manual testing. In addition to this, I have contributed to various other platforms such as Accel.com, D2C, and B2B websites, including their mobile applications. My experience spans across mobile testing, functional testing, Accessibility Testing and automation testing using the Playwright tool.

SmartCue.com

I have worked on SmartCue.com, a platform for creating interactive product demos, where I handled both manual testing and automation testing using Cypress. I was also involved in client meetings and requirement gathering, ensuring alignment between technical implementation and business goals. Additionally, I've tested platforms like Accel.com, D2C, and various B2B applications, including their mobile apps, with a focus on functional, mobile, and automation testing using Playwright

SKILLS

Programming Languages: Java, Typescript, Python

Tools/Platforms: Redmine, Mobile Testing, LambdaTest, Testcase Strategy, Test case design, Load Testing, selenium, Accessibility testing, AI-based Product Testing

Database : SQL
